

QUALITY AND ENVIRONMENTAL POLICY STATEMENT

Golden rule:
Meet customer and win his trust

DALSTROJ applies the following principles of quality and environmental policy:

- production and delivery of products and services according to the customer's requirements,
- increasing market reputation through customer satisfaction,
- permanent employee education and training,
- running the business successfully by making profit margins higher for the wellbeing of the company and employees,
- creating working environment that will provide better communication and cooperation within the company,
- compliance with the requirements and continual efficiency improvement of quality management system,
- regular analysis of its processes and products in terms of environmental impact, as well as setting goals and their implementation towards permanent improvement,
- permanently focusing attention on the rational use of energy and natural resources,
- aspiration of implementing new technologies in production aimed at reducing the amount of waste,
- considerate handling of hazardous materials and their replacement with less dangerous,
- directing the overall activities to prevent incidents and potentially dangerous events and prevention of environmental pollution,
- compliance with the applicable regulations,
- application of integrated quality and environmental management system according to ISO 9001:2015 and ISO 14001:2015 in order to achieve our goals.

Split, February 2018.
